

Traumatic SCI Data Collection Form

Name: _____

Location (Town/Region/Country): _____

Name of Hospital/Rehabilitation Centre: _____

Catchment population served by the above hospital: _____

Data reporting period: _____

Data Items	Number	%
Number of incident traumatic SCI cases during this reporting period		
Number and proportion of Males and Females		
Age range of SCI cases (yrs)		
0–15		
16–30		
31–45		
46–60		
61–75		
76+		
Number and proportion of complete tetraplegia		
Number and proportion of incomplete tetraplegia		
Number and proportion of complete paraplegia		
Number and proportion of incomplete paraplegia		
Estimated number of traumatic SCI deaths during the reporting period		
Prevalent Traumatic SCI Cases		
Estimated number of people living with TSCI in your catchment population		
Aetiology		
Land transport		
Motor vehicles (3 or more wheels)		
Motorcycles		
Bicycles		
Animals used as a means of transport		
Pedestrians		
Falls		
Low falls (on same level or less than or equal to 1 metre)		

Continued

High falls (greater than 1 metre)		
Sports		
Diving		
Most common sport (other than diving): _____		
Other sports-related SCI		
Work-related		
Falls from height		
Falls on same level while carrying heavy load		
Crush injuries		
Other work-related SCI		
Violence/assault		
Firearm		
Stabbing		
Self-harm (suicide attempt)		
Other-violence related		
Other causes of traumatic SCI
